

The description of our “Hexenhaus Ilse”

The holiday house has a size of 80 square metres and is divided into two bedrooms (One of them contains a double bed and the other is provided with two single beds), a kitchen, a bathroom, an additional toilet, a living room and a corridor. All rooms were recently renovated.

The kitchen is equipped with an electric cooker which has four hot plates, an oven, a toaster, two coffee machines (one with filter, the other for pads), a microwave as well as a fridge.

Right next to the house you will find a garden and a big terrace which offers seats to sit and a grill which you are allowed to use. There is also a small parking lot in front of the house.

In our house you are also permitted to smoke and to bring dogs and other pets. In the garden a shower is provided for cleaning the dogs after having been for a walk in the forest. Besides, towels for drying the dogs are offered as well. If you wish to share your bed with your dog we ask you to bring your own linen and we would also appreciate if your beloved would lie on an extra blanket when sitting on the sofa.

The house is located in a dead-end street where traffic is very low. Furthermore, the forest is directly situated next door. 30km further you can find the Rursee which is a famous lake for swimming and at a distance of only 15km there is a village called Vossenack providing an open air pool.

The village called Zweifall in which the holiday house is located does not only provide a bakery and a butchery (which is only available on Saturdays) but also four restaurants and a snack-bar. A supermarket and further stores in the next village can be reached within a few minutes (5km).
